SUMMARY

Kovel Army Barracks North is located on the north side of Kovel, adjacent to the Kovel railroad transshipment site (Figure 1). The area covers approximately 230 acres and is road served with rail access.

The installation (Figures 2 and 3) contains two multistory barracks, five barracks, 16 administration buildings, three vehicle maintenance buildings, seven vehicle storage buildings, 19 storage buildings, two probable ammunition

storage buildings, one support building, one unidentified tower and one water tower.

Training facilities include a drill field and a driver-training course with a figure-8 turning circle.

The installation is active and no change has been noted since [REDACTED] however, improvement in the quality of photography shows buildings which are not new but could not be identified on earlier photography.
